| 15:45-16:30        | Open discussion                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Breakout D</b>  | <b>Financing low-carbon investments</b><br><i>Venue: International Hall, third floor</i>                                                                                                                                                                                                                                                                                                                                                           |
|                    | <i>This session will discuss how businesses can invest in green industries and technologies that contribute to low-carbon economy without compromising their competitiveness. It will identify market instruments and other incentives as well as innovative financial mechanisms and partnerships, including South South partnerships, to promote a low-carbon society. It will also discuss sustainability-oriented analysis for investment.</i> |
